Judith

Thanks for the email. I was in DC all day but will regroup with Mark and my team to discuss early next week to discuss where we are, the options and timing.

Thanks

Bob

Hi bob: I spoke with walter. While some LSRP's are doing on land work along the river, we do not believe that much is going on in the river. if there is ongoing work, let us know and we are open to some limited carve outs. We are anxious to move ahead on this but will not proceed in the coming weeks. about how much time would you need to reach a decision on supporting federal superfund listing? I am around until Jan 19 and then walter can be the main point of contact. Thank you for your consideration of this. judith
